

#insight4u

Hi, I'm Daniel Premkumar!

I'm Mechatronics Engineer with 3 years of experience in machine building companies.

Of course, it was a very tough decision for me to quit my job and join PGPBA at Indo-German Training Centre, Bangalore. Now I could proudly say that indeed it was the right decision at the right time to shape my career. IGTC has the best designed German Dual system curriculum structure to meet the needs of the corporate world with industrial experts as faculties. The IGTC gave me the opportunity to get some valuable insight of the German culture and to do my first steps in the German language. Furthermore I got the change to develop my technical and managerial skills with my dream company, Festo India Private Limited.

"Shape your career with IGTC"
