Hi, my name is Harshitha KGS, Batch 2015-2017!

'The integration of theory and practice is a brilliant combination for any learning. Such courses are rare to find in our country and I am happy to be part of one. Working with multinational companies like Wuerth Elektronik India Pvt Ltd, my interning company, has been a thrilling and enlightening experience for me. The expertise of different fields not only teaches us but also exposes us to the realities in future. All the elements of the programme add value to your learning and growth. It is a rigorous, intensive, enlightening and exciting programme. You come out as an independent and confident human being with excellent managerial skills. It is definitely worth pursuing, for an awesome future and life changing experience. Cheers!'
