

#insight4u

Hello, my name is Hiral, Batch 2015-2017!

"Coming here to IGTC Bangalore I experienced a drastic change in myself. Shifting from Mumbai to any other city in India was never on my cards. Somehow I made an exemption and was ready to move terrains and come to Bangalore for my PGPBA. Here I was exposed to rigorous teaching by top of the line professors. In turn, they acted for us as a perfect platform to cope with real time working experience we underwent during our internships. I got an opportunity to intern with Pamas Mumbai office for 3 months. Here I got a first-hand experience of what my career would really look like working as a management professional. The good part about doing a PG programme with IGTC is that they have the best placement partners. So from a student's point of view you know you got to finish your PGPBA with good grades and a reputed company is already waiting to hire you."
