Hi, my name is Sameera Simha N!

*'Quitting my job at Bangalore International Airport and getting back to studies was one of the hardest decisions I've ever had to make. Now I feel it was the right thing to join IGTC. Compared to all the other MBA programmes offered at every other good college in Bangalore, the German Dual Education system attracted me the most. Moreover, I am able to connect the airport operations to the management subjects taught at IGTC. Interning with Carl Zeiss, a large German MNC, is a great opportunity for me. I feel happy to be a part of the research team and assist in introducing a new product to the market. I am looking forward to more opportunities in future.'*
