Hi, my name is Clinton Paul!

"I joined the IGTC PGPBA course in August 2015 after some serious contemplation as I was initially sceptical to get outside my comfort zone leaving Mumbai. However, it has been almost 9 months into the course and I think that this has been a very good decision. The teachers are excellent who take a keen interest in the holistic development of students. The knowledge imparted through classes and the internship is very practical and relevant. Living in a new city, learning a new language (German), and interacting with people of different cultures and backgrounds has helped me grow as a person overall."
