Hello, I'm Debasish Dash!

“I’m attending the Post Graduate Programme in Business Administration at the Indo-German Training Center (IGTC). I’m an engineering graduate and I used to work at Decathlon Sports India Pvt. Ltd. as a sales manager. Everything was good but being an engineer, I always wanted to work in the production sector and at Decathlon they wanted me to work in sales. I was satisfied with my job but I want to explore a career in the fields of supply chain management or production. That’s why I thought about pursuing my higher studies and one of my friends, who works for Lufthansa Technik Pvt. Ltd, told me about IGTC which has an unique way of training.

Based on the German dual system of practical and theoretical learning, it is one of the key roles and services of the German Chambers of Industry and Commerce. They provide real-time learning through internships in member companies of the Indo-German Chamber of Commerce. They also provide you with theoretical learning and offer good placements in German multinational companies.

I researched information about IGTC on the internet as well as by talking to alumni and everyone gave me really good feedback about the programme. I went to IGTC and applied for enrolment, passed the entrance exam and got selected for an internship in a German company called EFD Induction Pvt. Ltd.

After having successfully finished the first phase of theoretical exams and the practical internship, I’m now in the second phase of the programme. The faculty is very good and supportive and I feel that joining IGTC was one of the best decisions I have ever made.

Thank you, IGTC!!!”
