Hello, I'm Gulafshan Perween!

“It has been seven months since I joined the Indo-German Training Centre (IGTC). During this time, we were going through the first phase of the training session. So far, it was a great time and a great experience at IGTC. I'm not from Bangalore but from Ranchi, and it's the first time that I'm away from home alone. I want to do my MBA and I'm interested in business.

I joined IGTC because of its unique Post Graduate Programme in Business Administration (PGPBA). It provides me with a six-month internship which no other business school can offer. I'm gaining practical as well as theoretical knowledge. The IGTC gives you a lot of exposure to the real corporate world. Its unique PGPBA gives you a totally different insight about the content of the management courses.

This programme is totally different from other management programmes of other business schools. Not only the six-month internship in a German company is a very big opportunity, but we are also taught valuable things about organizations which will help us in future. We get taught in e.g. Human Resource Management and Organizational Behaviour which helps us to improve our soft skills, and we get to know how to behave in organizations. It helps us to learn more about the inside of organizations.

I also got an internship in one of the companies. Being a fresher, it gave me a lot of practical knowledge about organizations as well as about people. I worked on different projects in the company in which I did the internship, which definitely has increased my knowledge as well as my skills.

Overall I am having a great experience here and I learn a lot of new things.”
