Hello, my name is Hemil Oza!

“The Post Graduate Programme in Business Administration (PGPBA) at the Indo-German Training Center (IGTC) is based on the German dual education system and includes a six-month internship in renowned German companies, which attracted me the most towards IGTC. The programme offers a rare combination of theoretical learning and practical training. My experience so far has been amazing at IGTC. I have experienced a vibe of enthusiasm created by the professors in the classroom. The students have the opportunity to learn from the best faculty with high qualifications and vast experience in their respective specialization.

Being from Mumbai, I had to move to Bangalore to take the PGPBA. Bangalore is a huge city offering cultural diversity to the fullest. Staying away from home was an all-new experience for me. I learn new aspects of life every day, waking up with determination and going to bed with satisfaction. It’s a great experience studying at IGTC and living in Bangalore.”
