Hello, my name is Saurabh Tajanpure!

“My prime reason for joining IGTC was to learn about management concepts as I have the dream of becoming an entrepreneur in the near future. The Indo-German Training Centre gave me a fascinating platform to build my management skills through its dual education programme.

Through the course I was able to do an internship with highly successful professionals and well reputed companies. I would urge everyone who is pursuing goals like that to try IGTC. The faculty in IGTC is fantastic and gives us practical examples on real market problems. I am glad to be a part of IGTC.”
