Hello, I'm Shivani Sawant, Batch 2017-2019!

"I came to know about IGTC through my friends who are alumni of IGTC Mumbai. I always wanted to do a management course and the PGPBA at IGTC seemed to be the perfect choice for it. It provides an exposure to the German culture through the German dual education system. I am extremely glad that I chose to join this course. The course helped me to gain knowledge about the various areas of business instead of specializing in a single field. It helped us to gain theoretical knowledge as well as practical experience by getting a chance to intern at top German companies.

My internship at Festo India Private Limited helped me to enhance practical aspects of management as well as to know more about the corporate culture. It helped me to evolve as a new, confident person. The journey at IGTC gives us a practical learning experience which helps us to be good managers in the future."
