Hello, I'm Shoubhik Pakrasi!

"I got to know about IGTC from my cousin.

After my graduation, I was confused whether I should start working or pursue further studies. After contemplating a lot, IGTC looked like the best option for me.

After the first seven months of the programme, I can say that it is a great platform to learn and explore. In order to apply the theoretical education provided by IGTC, I will apply my new knowledge in my upcoming internship phase."
