

## **#insight4u**

Hi, I am Shreya Pawar, IGTC PGPBA Batch (2017-2019)!

“Since my brother is an IGTC alumnus and knows how it helped his career to grow, I got a clear picture about what the next step after my graduation would be. My decision to join IGTC was influenced by the unique German dual system which IGTC provides to us.

Indeed, I had to move far away from home and my family, but now I realise that coming to IGTC was worth it. The faculty at IGTC is highly qualified and has in-depth knowledge about each subject. Getting the theoretical knowledge is a must but besides that, IGTC gives us an opportunity to work as an intern with German MNCs.

I was enlightened when I got the opportunity to work as an intern with Festo India Private Limited. This internship gave me a thorough practical knowledge of how organisations work in the real business world. Even my experience of coming to Bangalore was great, as the weather of this city makes us more comfortable to get adjusted and work with ease in the city.

Overall, studying at IGTC and moving away from my hometown made me an independent and confident person.

Thanks to IGTC for giving me much more than I expected!”
