Hello, I'm Siddharth Dixit!

"I joined IGTC because of the unique dual education system. The whole course structure is designed in a way which does not only help to learn management concepts but also how to apply these concepts in real life situations. The 18-month course is full of learning and developing the managerial approach towards problem-solving.

Especially the Internship in German MNCs gives us hands-on experience about the corporate world.

The faculty of IGTC is experienced and extremely proficient. They taught us subjects in a practical way through presentations, case studies and live projects. Coming out of the comfort zone is the basic requirement to become a more competent person in life and since not all of us are from Bangalore, we need to adapt to the new cultural food, people and language.

It's the first time I left my home and initially, it was really hard to get used to the change, but slowly and gradually I learnt how to do it."
